L. L. MAY & CO.
ST. PAUL, MINNESOTA

Why the Merchant Should Buy His Seeds Outright

THERE ARE so many good reasons why the merchant should buy his seed outright, that the "commission plan, on consignment," is not worthy of consideration.

The merchant pays the Commission House the profit which he should have.

Seeds bought outright cost only one-half.

There is double the profit in seeds bought outright.

Commission sold seed are often carried over from year to year.

Buying your seed outright you can make your own selection.

You can sell seven packets for 25 cents and make 150% profit.

Commission sold seeds are not held in esteem by gardeners.

Dealers who formerly sold seeds on commission are now buying outright from us.

Seed is the only staple commodity that the merchant sells on commission.

The "Cremation Plan" is only another subterfuge for square dealing, when at the end of the season a few packages are burned "because they would not germinate."

For over 30 years L. L. May & Co. have fostered their reputation for square dealing and built their business upon honor.

May's seeds are freshly grown seeds that will sprout and come up, under ordinary growing conditions. They are thoroughly tested for their reproductive qualities in germinating quickly and maturing rapidly.

Earnestly soliciting a share of your patronage, upon the high merit of our seeds, we beg to remain,

Sincerely yours,

L. L. MAY & CO.

To Our Patrons and All Merchants Who Sell May's Seeds

St. Paul, Minn., January 1, 1914.

IT IS with pleasure we hand you our **Trade Price List** for 1914 and again take this means of securing your esteemed orders for **Seeds** for the coming season. Merchants who have handled our seeds in the past are well aware of the excellent quality of them, also know that we protect them by always quoting the very lowest price on all varieties. By carefully comparing our prices with those issued by other reliable concerns, you will find that on a general line of seeds you can buy from us to an advantage, and when you receive seeds bearing our label, can rest assured that you are handling those of a superior quality and need have no fear as to their giving your customers entire satisfaction and receiving an increased demand for them from your trade.

Soliciting your esteemed orders and assuring you if favored with the same that we will use all endeavors to make a continuous customer of you, we remain,

Yours truly,

L. L. MAY & CO.

Seed Merchants and Growers

ST. PAUL, MINN.

ALL ORDERS will be executed carefully and promptly and shipment made as directed. Where no directions are given we will use our best judgment in shipping and forward by the most direct and cheapest route.

ORDER EARLY. We are already sold out of a few varieties of which the crop was an extremely short one, but our stocks of most staple seeds are larger than ever before, and we trust large enough to enable us to fill orders as received. Still, owing to the great scarcity in many lines and the consequent increased demand we earnestly advise all our customers to place their orders early, to insure their being filled before our stocks are depleted. We will fill orders at prices herein quoted until present stocks are exhausted, but will not be bound by these prices for any definite time nor quantity, and they are subject to advance without notice.

THE BEST IS NONE TOO GOOD FOR OUR PATRONS, and we realize this as much as any of our largest market gardeners, and know there is not a firm in the world which is more particular regarding the purity of their seeds than we are, but still, like all other seedsmen,

WE DO NOT GIVE ANY WARRANTY, EXPRESS OR IMPLIED, AS TO THE DESCRIPTION, QUALITY, PRODUCTIVENESS OR ANY OTHER MATTER CONNECTED WITH THE SEEDS, PLANTS, BULBS, ETC., WHICH WE SEND OUT, NOR WILL WE BE RESPONSIBLE IN ANY WAY FOR THE CROP.

Every order received for goods enumerated in this catalogue will be executed and sent out only on these conditions.

TERMS. All bills of Garden Seed shipped after January 1st are due net cash June 1st, 1914, without regard to date of purchase. Shipments made after June 1st are due net cash October 1st and all shipments after October 1st are due net cash January 1st, 1915.

BIRD SEED, FIELD SEED, LAWN SEED, GRASS SEED, CLOVER SEED, POTATOES, ONION SETS AND TOOLS ARE SOLD STRICTLY FOR CASH, SUBJECT TO SIGHT DRAFT IF NOT PAID WITHIN TEN DAYS FROM DATE OF SALE.

PRICES QUOTED are for goods F. O. B. St. Paul.

Boxes, barrels and bags, to insure safe transportation, are charged at cost.

May's New Seed Cabinet

This Cabinet and 500
Packets of Fresh Seed,
with 50 Half Pint
Cartons of Peas,
Beans and Corn **\$10.00**

To the Wide Awake, Progressive Merchant:

WHILE WE REALIZE that the most essential part of your Seed Display is knowing your goods are fresh and reliable, still we feel by providing our customers with the best possible facilities in displaying their seed, that we have overcome the most objectionable feature of the past in handling this line. The assortment given below covers all the staple sorts and such as you will find most demand for, and remember, they are strictly *fresh, new seeds* not to be classed with Commission Goods. If you have never handled our packets, it must have been because you never investigated the advantages to be gained in handling seed purchased outright and in a year like this covering short crops and with increased demand for all seed, we feel this is your opportunity to get established in this line.

The U. S. Department of Agriculture Urgently Recommends the Sowing of Northern-Grown Seeds in the South, Because of Their Strong Vitality, Fertility and Germinating Properties

GIVEN FREE WITH EVERY
ORDER OF \$50.00 OR OVER

A NEW FEATURE We have been confronted with the objection from many stores that while they would like to handle seeds in packets, their facilities for placing them on sale were inadequate. We have anticipated this, and have solved that problem, by giving FREE of charge our handsome Progressive Merchants' Store Seed Display Cabinet. This cabinet is handsomely finished, made of tin partitions with openings so that every variety can be seen. The front packet remains in place, giving the cabinet the appearance of always being filled. One clerk will sell more seeds from this case than any other way. Varieties called for are easily located.

IMPORTANT

OWING TO THEIR being unsatisfactory both to the dealer and grower, we have discontinued the half size packet. You will please take notice that our packets are large size, full weight. They are in every way equal in quantity and weight to those put on the market by any seed house in America. Your attention is called to the beautiful lithographed packet on our front page cover, as a sample.

May's New Retail Catalog for 1914

SHOULD YOU be interested in our retail catalog, it will be mailed you free, promptly on receipt of your name and address. It is beautifully illustrated, and is the finest catalog ever taken from the press, by any seed house in America. It contains everything for the home and farm, in Seeds, Bulbs, Plants, Shrubs and Trees, with practical instructions for growing. Address

L. L. MAY & CO.
St. Paul, Minn.

MAY'S VEGETABLE SEEDS IN PACKETS

THE SALE OF vegetable or garden seed is such an important matter that every precaution should be taken to have the seed dependable. May's seeds are all freshly grown and for this reason they are dependable and in every way superior. In planting May's seeds you can depend upon them sprouting and coming up, under ordinary growing conditions. The splendid list here given to select from includes the best sorts in cultivation, the most desirable varieties. By ordering early you avoid the delay of the on-coming rush of the busy seed season, and then you have the whole season's trade before you.

MAY'S—Largest Seed, Nursery, Horticulture and Floriculture House in America

MAY'S SEEDS IN CARTONS

Peas, Beans and Corn in Half Pint Cartons, per 100, \$6.50; per 1000, \$60.00.
Seeds in $\frac{1}{4}$, $\frac{1}{2}$ and 1 Pound Cartons Sold at Pound Prices and 1c. Additional for Each Carton.

WE WISH TO CALL your attention to our Lithographed Cartons of Peas, Beans and Corn, also Turnip Seed in $\frac{1}{4}$ pound cartons. These are very handsomely gotten up, as shown in illustration herewith, in fact no firm in the Seed Trade has anything to offer that is put up in a better style of package or contains goods of equal merit. The varieties used in these cartons are the best of the standard sorts known in the trade today and nothing more suitable could be put up for planting in the home garden. The packages are very attractive, and if well displayed, will prove ready sellers in any general store.

REASONS WHY A DEALER SHOULD PURCHASE CARTONS MADE UP READY FOR SALE

First. He obtains a more handsome package than can be made up from his own bulk, unless he were to go to a prohibitory initial expense in the way of stationery.

Second. Many or all of his customers call for a packet which will go further than the ordinary five cent packets sold by everyone. This our carton does and fills in a great want amongst Home Gardeners who need more than a 5 cent packet contains and yet not ground to plant a whole pint.

Third. A dealer buying Peas, Beans and Corn in bulk has to put out considerable expense in labor and packing besides the waste of handling, before his goods are ready for the customer, and even then they are not in such attractive shape as when put up in our Lithographed Cartons.

Fourth. A great advantage in buying ready to sell is the saving of time. In the making up of 100 or 1000 cartons, we go once to our stock; a dealer in making his individual orders would go 100 or 1000 times to his stock, largely multiplying the chances for error.

Fifth. Remember when a dealer has call for a packet of Corn, Beans or Peas, he can just as easily sell a carton as a small packet and the profits on our cartons selling at 10 cents retail is 43 per cent on his investment.

SWEET PEAS AND NASTURTIUMS

Put up in Ounce Packets, Beautifully Lithographed in Colors.

THE GROWING DEMAND for these popular flowers has had the tendency to bring in demand packets larger than the ordinary and to supply this want we have put up in handsome lithographed packets the finest named varieties and mixtures that can be grown. Cultural directions on all packets.

LAWN GRASS

What adds more to a home, no matter "how small," than a well kept lawn? This can only be obtained by planting good seed. No greater deception can be practiced than in the Seed Line, and mixtures can be made to sell at mostly any price. In our mixtures we ask a fair, legitimate profit only, and supply seeds which we know will give satisfaction. A good mixture cannot be obtained below our quotation. On every package full instructions are given how to sow and prepare a lawn. Also the quantity of seed required to plant. Prices on special mixtures for golf links given on application.

MAY'S CENTRAL PARK MIXTURE

For quickly producing a permanent, thick and velvety sward, this brand cannot be excelled. It is the best mixture of grasses we sell for lawn making, and will give satisfaction wherever sown. It is a careful blending of fine growing varieties, each in its proper proportion and thoroughly mixed, so that the results from its planting are a uniform growth of rich, green grass, free from coarseness, and is often ready for cutting in four or five weeks from time of sowing. It has stood the test of our customers for the past 20 years as the Ideal Mixture.

MAY'S TERRACE SOD MIXTURE

A special mixture of grasses for sowing on terraces and hillsides, producing very strong, spreading roots, thus preventing heavy rains from washing it out.

It will withstand drought and exposure and thrive on shallow soils, and at the same time produce a rich green lawn throughout the season.

LAWN GRASS MIXTURES

Central Park Mixture. For lawns of any extent we recommend this as our best mixture. Per 100 lbs., \$22.50.

Evergreen Mixed Lawn Grass. This is a good mixture, but not equal to Central Park Mixture. Per 100 lbs., \$20.00.

May's Terrace Sod Mixture. A special mixture of grasses for sowing on terraces and side hills. Per 100 lbs., \$22.50.

May's Special Golf Link Mixture. This mixture is composed of grasses best suited for golf links. Per 100 lbs., \$22.50.

Tennis Court Mixture. Especially adapted to the requirements of Tennis Courts, Cricket Fields, etc. Per 100 lbs., \$22.50.

Shady Nook Mixture. In many lawns there are large shade trees and shady places where ordinary mixtures thrive but poorly or die out altogether. For such spots we have a special mixture of grasses which will grow in the shade as well as in the sun. Per 100 lbs., \$22.50.

Our Central Park \$22.50 Terrace and Sod Mixtures we put up in cases containing 24 one quart lithographed cartons. Per case, \$3.00.

MAY'S FLOWER SEEDS IN PACKETS

WE MAKE A SPECIALTY of growing flower seed. We have persistently followed the growing of flower seed so long, that the name of May is a guarantee of the best sorts grown. Their seeds are of superior quality, always fresh and under ordinary growing conditions will give highly gratifying results. In buying May's seeds you do so with every confidence in getting just what you pay for. The varieties embraced in this list are to grow in the open or garden, as desired, and of easy culture. The packets are beautifully lithographed, large size and full weight.

NOTE:—All Flower Seed Packets put up in multiples of 5, 10 and 20 only. Agents must follow these instructions when taking orders.

The U. S. Department of Agriculture Urgently Recommends the Sowing of Northern-Grown Seeds in the South, Because of Their Strong Vitality, Fertility and Germinating Properties

MAY'S CABINET FLOWER SEEDS

THESE SEEDS ARE all fresh grown, and under ordinary growing conditions will give highly gratifying results. They are put up in beautiful lithographed packets, and are very attractive. When cash accompanies the order Collection No. 1 (with Druggist's Box) will be sent by Parcel Post for \$3.50. Collection No. 2, for \$5.50. This low cash price is made to avoid so much bookkeeping. The box itself is a decorative ornament to any store. It is neat, attractive and convenient.

No. 1

Contains 200 packets.
Costs \$3.25 cash, or
June 1st \$3.75. Sells
for retail at \$12.75.

No. 2

Contains 320
Packets. Costs
\$5.25 cash, or
June 1st \$6.00.
Sells for retail at
\$19.65.

Davis Kidney Wax

MAY'S SUPERIOR GARDEN SEEDS

Crop of 1913

Perfectly Fresh and All Showing a High Test of Germination.

A TELEGRAPHIC CIPHER is attached to each article, which will enable orders to be sent by wire at a small expense. In dispatching use the word freight, express or mail, to designate how to ship. For example, "Freight hundred bisk," means ship by freight one-hundred pounds beet, May's Early Blood Turnip Improved.

NOTE.—In ordering by mail please do not use cipher, only in cases when you order by telegraph. Kindly bear this in mind, as it will save us an endless amount of work, also prevent delay in the execution of your order.

Hollander

CABBAGE

HOLLANDER

WITHOUT EXCEPTION the best late cabbage ever offered the gardeners of America. It is a wonderfully hardy, strong, vigorous grower, enduring both frost and drought and producing the most perfect, solid, round heads in seasons when other varieties fail completely. For market gardeners and large cabbage growers Hollander is unequalled, its keeping qualities

being superior to any other variety. *A head of Hollander when properly trimmed for marketing will weigh fully one-quarter more than any other cabbage of the same size.* Some strains are listed as "Ball Head," "Emperor," and "Export," but none of these can equal our selected stock of true Hollander.

Rocky Ford Netted Gem

Osage Melon

MAY'S MUSK MELONS

ROCKY FORD NETTED GEM

MANY CARLOADS of this variety have been shipped in the last three years from the growers of Rocky Ford, Colorado, from which the name is derived, to all our large cities, and no muskmelon ever sold so readily and brought such high prices as Rocky Ford. The fruits resemble the old Netted Gem, but are more oval in shape, skin green, slightly ribbed and heavily netted. The flesh is a light green in color, thick, ripening clean to the rind, with a very small seed cavity, very sweet and of luscious flavor. It is one of the earliest melons, and exceedingly prolific.

The Rocky Ford has become one of the most popular melons, and it is unquestionably one of the best for market gardeners and shippers, as well as for the home garden.

MAY'S WATER MELONS

KLECKLEY'S SWEETS. For home use this is unsurpassed. The vines are strong and vigorous and the fruits grow uniformly to quite a large size; oblong in form. 18 to 20 inches long and 10 to 12 inches in diameter, rather tapering at the ends. The skin is a rich dark green, while the flesh is bright scarlet, ripening close to the skin, the rind being only about half an inch in thickness.

Northwest Premier Pea

MAY'S PEAS

PEAS ARE SCARCER than has ever been known before, many varieties nearly complete failures; while these prices may appear high they do not represent the true value of peas today. Varieties marked thus (o) are wrinkled sorts and are sold at 56 pounds per bushel. All smooth peas at 60 pounds per bushel.

Nasturtium

DWARF
NASTURTIIUMS

MAY'S SPECIAL MIXTURE

DWARF NASTURTIIUMS are most admirably adapted to beds and borders. "May's Special Mixture" of Dwarf Nasturtiums will give a larger variety of colors in even proportions than any other Nasturtium mixture, for it is put up by ourselves from named sorts, which have the richest and most varied combination of colors ever produced, showing odd colors hitherto unknown among flowers, per ¼ lb. 25c., lb. 75c.

Dwarf Sorts, all colors mixed per ¼ lb. 15c., lb. 40c., 10 lbs. \$3.50.

TALL
OR CLIMBING
NASTURTIIUMS

MAY'S SPECIAL MIXTURE

BESIDES THEIR ORDINARY garden use for trailing over fences, trellises, stone walls, etc., these can also be grown as pot plants for winter flowering, as screens, or as trailers for hanging baskets and vases, sow plenty of seeds in drills, and thin

to 6 inches. They bloom most profusely in poor soil. Our special mixture is made up from the best sorts in an even proportion of colors. Per ¼ lb. 20c., lb. 70c. Fine Mixed ¼ lb. 15c., lb. 35c., 10 lbs. \$3.00.

The U. S. Department of Agriculture Urgently Recommends the Sowing of Northern-Grown Seeds in the South, Because of Their Strong Vitality, Fertility and Germinating Properties

To Progressive Merchants

MERCHANTS SHOULD MEET the rapidly growing demand for nursery stock for the adornment of home grounds which the awakened interest in suburban and country life is stimulating, and it is our purpose to convince you that it will be to your interest to do so; show you how *You Can Make a Hundred Per Cent Profit* on stock immediately turned over and how stock may be handled safely with the minimum expense in handling.

FIRST. Select desirable and popular varieties of ornamental shrubbery, plants which will give immediate effect the first year of planting.

SECOND. In selling in wholesale lots we are able to give you stock at a cost of from \$8 to \$10 per hundred that you can retail at from \$25 to \$40 per hundred, basing prices on those of any retail nursery house in America, with the added advantage to the customer of handling and choosing his stock himself and obtaining it without delay.

THIRD. All danger in handling is eliminated by the fact that our stock is all shipped in a dormant condition; each bush is well mossed and covered with burlap which insures vitality for an unbelievably long period of time; and every bush bears a label giving the name of its variety.

There is no Effort or Expense Necessary on Your Part, the stock may be sold as received by you without handling except for display. Many of the large department stores have installed this department and have found it to be one of the best paying branches of their business. We have indicated in the following pages a few of the varieties that they have found to be the best sellers.

The illustration show the shrubs properly baled up and ready for sale. Our name as one of the oldest and most reliable nursery houses in America, stands back of our stock and only the best grades of all varieties are offered. Prices named include cost of packing and burlaping of each root.

ORDER EARLY and have your stock on hand for early spring trade. Select your own varieties or leave the selection to us.

MAY'S HARDY SHRUBS

AMELANCHIER ALNIFOLIA

Thick, broad, oval leaves toothed towards the apex. Dark purple or blue flowers and large, sweet, juicy nuts. Valuable for fruit or ornament. Per 100 \$15.00.

BARBERRY PURPLE

A shrub growing three to five feet high with violet purple foliage and fruit. Very effective in groups and masses or planted by itself. Per 100 \$7.00.

BARBERRY THUNBERGII

A pretty species of dwarf habit, small foliage changing to a beautiful coppery red in autumn. Valuable as an ornamental hedge. Per 100 \$10.00.

CORNUS

A beautiful shrub for winter effect. It turns a very bright red in the fall and remains thus all winter. Very beautiful and extremely hardy. Per 100 \$3.00.

ELDER GOLDEN

A handsome variety with golden-yellow foliage. A valuable plant for enlivening shrubberies. Per 100 \$10.00.

HONEYSUCKLE TARTARIAN

The following varieties are of erect, shrubby habit. Valuable for their handsome flowers and showy fruit: White, Pink or Red. Per 100 \$3.00.

HIGHBUSH CRANBERRY

Both ornamental and useful, its red berries resembling cranberries. Esteemed by many. Hang until destroyed by frost late in the fall. Per 100 \$3.00.

HYDRANGEA

A fine shrub; flowers white, pyramidal panicles a foot long. One of the finest flowering shrubs. Per 100 \$10.00.

SYRINGAS

Well known beautiful shrub, indispensable in every collection. They flower in May. Per 100 \$10.00.

LILACS

A well known, beautiful shrub; indispensable in every collection. They flower in May.

White. Large flowered, pure white trusses of flowers.
Purple. A standard variety. Large bluish purple flowers. Always good. Per 100 \$10.00

SPIREAS—Meadow Sweet

Spireas are all elegant low shrubs of easiest culture, and their blooming extends over a period of 3 months.

Anthony Waterer. Dwarf, bearing dark crimson flowers all summer.

Billardi. Rose colored blooms.

Callosa. Free growers, with large panicles of deep rosy blossoms. A fine summer bloomer.

Prunifolia. Double flowered, plum leaved. Pure white flowers like white daisies, flowering a long time, places this variety in the front rank among flowering shrubs.

Reevesii. Lance leaved. A charming shrub with narrow pointed leaves, and large round clusters of white flowers that cover the whole plant and render it exceedingly effective.

Sarbifolia. A vigorous species with leaves like those of the Mountain Ash. Large white flowers.

Thunbergii. Of dwarf habit, foliage narrow and yellowish-green. Small white flowers appearing early in spring.

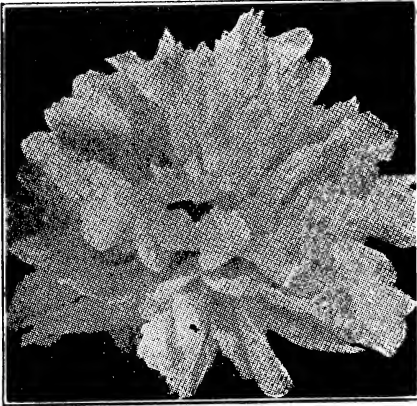

Van Houtii. Without doubt the finest in the collection. Covered with a mass of large, white flowers during May and June. Presents a beautiful appearance. Most hardy.

Price of Spireas, Varieties, \$10.00 per 100.

SNOWBALL

A well known favorite shrub of large size, with globular clusters of pure white flowers. Per 100 \$10.00

MAY'S CHOICE, HARDY PERENNIAL PLANTS

PEONIES

WILD FLOWER GARDEN.

CHOICE MIXED FLOWER SEEDS. A mixture of many varieties of beautiful, easy-growing flowers, producing a constant and varied bloom the whole season. This mixture is especially prepared from choice, fresh seeds, the colors and varieties being carefully proportioned, and will be found superior to any mixture offered.

NASTURTIIUMS. Ounce Packet.

.....	Tall Mixed, a Splendid Mixture of All Shades	Dwarf Mixed, a Choice Assortment of Various Colors
-------	--	-------	--

MAY'S LAWN GRASS SEED, put up in attractive one quart cartons, is one of our leading sellers for Department Stores. Easy to handle, no weighing, no waste, and something you will have many calls for. Our two well known brands are the standard in purity.

MAY'S CENTRAL PARK MIXTURE.

Composed of a variety of fine dwarf close growing grasses, which will insure a fine, thrifty and always green sod.

MAY'S TERRACE SOD MIXTURE.

A special mixture of grasses for sowing on terraces and side hills, producing strong, spreading roots, thus preventing heavy rains from washing out. It will withstand drought and exposure and thrive on shallow soils.

May's Scottish Chief Oats

THIS VARIETY was originated in Scotland, crops of 150 bushels per acre being common with the Scotch farmers. We do not hesitate now to offer it as the heaviest, earliest and most productive white oats in cultivation. This oat grows to a height of from five to six feet. The straw is exceedingly strong and wiry, enabling it to hold up its enormous heads of grain without breaking or lodging it in the least. It is entirely free from rust. The berry is very large and plump, almost like a barley grain, with a very thin hull. The weight of a measured bushel is from 40 to 42 lbs. Genuine seed can be obtained only from us. Sample sent on request.
1 bushel 80c., 10 bushel lots, per bushel 75c.

Marquis Wheat

HOLDER OF THE world's championship. The gold mine of the western farmer, being the earliest maturing wheat known and the heaviest yielder on the market, producing 200 bushels from a 4 acre field, 66¼ lbs. to the bushel. What Marquis Wheat means to western farmers, with the short seasons and early frosts, only the western farmers know, and to find a wheat that would ripen before the first frost and still give a heavy yield has been the aim of farm seed experts for years. Marquis wheat is recommended as the most promising sort at present available for farmers who require a hard red wheat of high baking strength and ripening ten days earlier than Red Fife. Send for circular and sample of the new wheat. Put up in sealed bags only. In larger quantities than priced below we furnish special prices.

Peck 60c., express or freight.

½ bushel 90c., bushel \$1.40, 10 bushel lots, per bushel \$1.25.

Seed Dependability

May's Northern-Grown Seed Partake of the Quickening
of the Soil and Climate in their Superior Hardiness

THE INTRINSIC VALUE of all seeds lies in the reproductive qualities of quick germination and rapid maturity. Too much care cannot be exercised in growing the crop from which the seed is obtained, the time and method of harvesting, together with their keeping between harvest and planting time. Even then, with the utmost care, there will be many faulty seeds, at best, for there is nothing perfect in this world.

There is no other industry that is so vitally important to the general prosperity of the masses as that of the seed industry. Its proper care and handling means food to both man and beast.

It is a great satisfaction to the dealer to know that he is selling fresh grown seed, but it is a greater satisfaction to the dealer's customer to know that the seed bought will sprout and come up, under ordinary growing conditions.

As wholesale seedmen, our first consideration is the interest of the grower—the customer of the dealer. If the grower's interest is fully protected by supplying him with fresh grown seed, then the dealer's interest is also protected at the same time. The interests of the dealer and grower are mutual.

The dealer wants to sell fresh grown seed to his customers; the grower is interested in getting fresh grown seed for his garden, as is the farmer for his broad acres. So everything is predicated upon obtaining good, fresh grown seed.

Our seeds are high-grade. That is, as seeds go, the class is high-grade. It would be literally impossible for anyone to obtain any better seed than we offer our customers.

We thoroughly test our seed for quick germinative properties, so that we know that their fertility for reproducing needs only to come in contact with the soil to sprout and come up and mature, under ordinary growing conditions.

Earnestly thanking our many patrons all over the United States, those in our Insular Possessions, Europe and the Orient, for their past favors, covering a period of over thirty years, with always pleasant relations, we beg to remain

Sincerely yours,

L. L. MAY & CO.
